 Costruiti con acciai speciali particolari e realizzati con l'utilizzo di macchine a controllo numerico ad altissima precisione. Gli alberi motore e bielle **ATHENA** sono oggi disponibili in una vasta gamma che soddisfa ogni esigenza dell'utente. In aggiunta alla versione come ricambio all'originale e versione racing, Athena propone anche la versione "corsa lunga" da utilizzare esclusivamente sulle ns. elaborazioni racing 80 cc.

- a. **ORIGINAL**: simile all'originale, ma con miglior bilanciamento e una biella più leggera. Il kit è fornito di speciali gabbie a rulli (testa e piede di biella).
- b. **RACING Ø10**: manovelle piene completamente lavorate al tornio per diminuire il volume nella camera di manovella. L'albero è equipaggiato di biella alleggerita e fornito di speciali gabbie a rulli (testa e piede di biella).
- c. **RACING Ø12**: uguale all'albero RACING 10mm ma con foro testa di biella per spinotto di Ø 12mm.
- d. **RACING Ø12 CORSA (43/44 mm)**: uguale all'albero RACING 12mm ma con corsa allungata. Questo kit albero può essere abbinato ai nostri kit cilindro racing corsa lunga per aumentare la cilindrata a 80cc.

 The crankshafts and connecting rods from Athena are made of special steel and are manufactured with CNC high precision machinery. **ATHENA** offers them in a complete range that can satisfy any performance need. In addition to the original spare version and the racing version, Athena provides also for the "long stroke" in order to be used exclusively on our 80cc racing tunings.

- a. **ORIGINAL**: similar to the original ones, they are better balanced and provided with a lighter connecting rod and new needle bearings (big end and small end).
- b. **RACING Ø10**: completely machined, they have lighter connecting rod with new needle bearings and full rounds to reduce the volume in the crankcase.
- c. **RACING Ø12**: same as Racing 10mm but with the 12mm Ø piston pin.
- d. **RACING Ø12 STROKE (43/44mm)**: same as 12mm Racing but with longer stroke to combine with our racing cylinder kits increasing the displacement up to 80cc.

 Fabriqués avec des aciers spéciaux et réalisés avec des machines à commande numérique de haute précision, les vilebrequins et les bielles **ATHENA** sont aujourd'hui disponibles en une vaste gamme qui peut satisfaire toutes exigences. Au-delà de la version « rechange à l'originel » et « racing », Athena propose aussi la version « course longue » qui doit être utilisée seulement sur nos élaborations racing 80cc.

 Auch im Bereich Antriebswelle und Pleuel haben die Technologie von **ATHENA** die Verwendung von Spezialstahl und der Einsatz von NC-Hochpräzisionsmaschinen im Produktionsverfahren zu höchsten Resultaten geführt. EXCLUSIVE DISTRIBUTOR ONLY FOR THE ITALIAN MARKET

 Il filtro aria DNA High Performance rappresenta una nuova generazione di filtri aria multistrato in garza di cotone impregnata d'olio.

Il filtro è composto internamente da 4 strati di una speciale garza di alta qualità in cotone progettata dal nostro dipartimento Ricerca e Sviluppo.

Il cotone viene inserito tra 2 strati di tessuto in fibra di alluminio ricoperti in resina epossidica, progettato per durare a vita.

I quattro strati di cotone e i due strati di tessuto in fibra di alluminio vengono pieghettati ad arte da macchinari elettronicamente controllati che garantiscono una altissima qualità finale del filtro.

Il risultato dello speciale design e del processo di produzione Hi Tec è un filtro con un elevato flusso d'aria, a basse restrizioni, con capacità superiore di trattenimento della polvere, che agevola il flusso di aria corrente.

L'olio che viene usato per impregnare il cotone è di un tipo speciale sviluppato dal dipartimento di Ricerca e Sviluppo dopo una intensa sperimentazione e realizzato da una delle migliori imprese produttrici d'olio. Quest'olio speciale è il punto forte del filtro che ha la capacità di produrre una carica statica sul cotone ed attrarre tutte le particelle di polvere che fluiscono attraverso il filtro, anche le più sottili.

I filtri ARIA DNA HIGH PERFORMANCE sono garantiti a vita e quindi non li sostituirete mai, a patto che per la sua manutenzione vengano utilizzati solvente ed olio originali DNA.

Quando il filtro è sporco seguite semplicemente le istruzioni che troverete nel kit di manutenzione, lasciate asciugare il filtro, ri-oliatelo e siete pronti per usare il vostro filtro, come nuovo!

La DNA si fa promotrice dello slogan "Prendersi cura dell'ambiente", disegnando, realizzando e promuovendo un filtro che non andrà mai gettato.

Utilizzando il cotone al posto della carta, portiamo lavoro al mercato del cotone e non viene sacrificato nessun albero.

Perfino la scatola è disegnata e realizzata con materiali ad alta qualità permettendovi di tenerla nel vostro garage e di utilizzarla come una scatola di conservazione.

Per praticità di consultazione abbiamo dato due possibilità di ricerca: la prima in ordine di applicazione di marca e modello e la seconda che elenca tutte le applicazioni possibili per singolo codice.

 **ATHENA** oggi dispone di una gamma completa ed aggiornata di variatori per scooter e maxi scooter. La scelta dei materiali, oltre al particolare disegno delle piste di scorrimento dei rulli, garantisce un'ottimizzazione della potenza del motore ad ogni regime di rotazione, aumentando l'accelerazione e la velocità massima con una ridotta perdita di potenza e coppia. Inoltre, Athena dispone di un'ampia gamma correttori di coppia e cinghie di trasmissione che permette di sostituire e migliorare la performance offerta dal prodotto originale. Al fine di rendere più facile l'identificazione del prodotto ricercato sono state individuate due tipologie di ricerca: applicazione di marca e modello e la seconda che elenca tutte le applicazioni possibili per singolo codice

 **ATHENA** offers a wide range of variators and torque drivers for scooters and maxi-scooters. The choice of materials, together with the specific design of the roller sliding lanes, guarantees an optimisation of the engine power at each rotation rate by extending the acceleration and the highest velocity with only a small loss of power and engine torque. Athena also offers a wide range of wheel pivot gears and transmission belts, which meet or exceed OEM performance product. In order to easily access our information, we provide for two methods of research: the first one is by trademark/model and the second one showing all the applications for every Part Number.

 **ATHENA** offre une vaste gamme de variateurs et correcteurs de couple pour scooter et maxi scooter. Le choix des matériaux, avec le dessin particulier des pistes de glissement des rouleaux offre une puissance optimale dans le moteur à chaque régime de rotation en allongeant l'accélération et la vitesse maximale avec une perte réduite de la puissance et de la couple du moteur. En plus Athena dispose d'une vaste gamme de pivots de roue et de courroies de transmission qui permette de remplacer et améliorer la performance de produit d'origine. Pour une consultation plus rapide et facile, nous proposons deux modalités de recherche: la première par marque/modèle et la seconde en choisissant les affectations disponibles pour chaque référence.

 **ATHENA** bietet auch eine große Auswahl an Wandler und Sportriemenscheiben für alle Fahrzeuge. Besonderen Wert hat Athena auf die Wahl der verwendeten Materialien gelegt und eine besondere Beachtung wurde der Gestaltung der Rollengleitbahn gewidmet. Optimierte wurde auch die Ausbeute der Motorleistung in jedem Drehzahlbereich, wobei die Beschleunigung und die Höchstdrehzahl mit einer reduzierten Leistungs- und Drehmomentsabfall erhöht. Athena bietet auch eine große Auswahl an Radzapfen und Transmissionsriemen an, die den problemlosen Austausch von Originalartikeln bei einem gleichen und sogar höheren Leistung gestatten. Um die Suche der Artikel zu erleichtern, gibt es zwei Suchmöglichkeiten: Die erste zeigt alle Anwendungen nach Marke und Modell, die zweite jede Athena Artikelnummer mit den möglichen Anwendungen.

*2 **CONSIGLIO TECNICO:** Il kit viene fornito con spinotto-pistone Ø 10 mm come l'originale. Viste, però, le sollecitazioni meccaniche a cui il motore viene sottoposto, consigliamo di montare il kit con spinotto-pistone maggiorato a Ø12 mm (vedi sezione gruppo termico). In questo caso, ricordiamo di sostituire anche l'albero motore originale con il nostro albero motore con spinotto maggiorato a Ø 12 mm (vedi sezione alberi motore).

TECHNICAL ADVICE: The kit is supplied with piston pin-piston Ø 10 mm as the original. In view of the mechanical stress we suggest to assemble the kit with increased pin-piston Ø12 mm (see section Thermic Units). In this case we remind you to replace the original crankshaft with our crankshaft with increased piston pin Ø12 mm (see section Crankshaft).

CONSEIL TECHNIQUE: Le kit est fourni avec un axe du piston-piston Ø 10 mm comme l'original. En raison des sollicitations mécaniques du moteur nous conseillons d'assembler le kit avec axe-piston majoré Ø12 mm (voir section Groupe Thermique). Dans ce cas nous rappelons de remplacer aussi le vilebrequin original par notre vilebrequin avec axe majoré Ø12 mm (voir section Vilebrequins).

*3 **DISPOSIZIONI DI MONTAGGIO:** In questo kit viene aumentata la corsa a 43 mm, occorre ordinare, pertanto, il relativo albero motore (vedi sezione alberi motori).
ATTENZIONE! Per montare questo albero motore si deve allargare il diametro di alloggiamento.
ASSEMBLING INSTRUCTIONS: In this kit the stroke is increased to 43 mm. You need to order the relative crankshaft (see section Crankshafts).

DISPOSITION DE MONTAGE: Dans ce kit la course est augmentée à 43 mm. Donc il faut commander le relatif vilebrequin (voir section Vilebrequins).
ATTENTION! Pour assembler ce vilebrequin il faut élargir le diamètre de logement.

*4 Albero motore speciale RACING con spinotto Ø12: lo spinotto Ø12 nei kit che in origine montano lo spinotto Ø 10 è consigliato per resistere maggiormente alle sollecitazioni meccaniche. Vi ricordiamo, pertanto, che questo albero motore va abbinato ai kit con spinotto-pistone Ø12.
Special crankshaft RACING with piston pin Ø12: in the kits with piston pin Ø10 we suggest to assemble the piston pin Ø12 as it better resists the mechanical stress. We remind you that this crankshaft has to be assembled in kits with piston pin Ø12.
Vilebrequin spécial RACING avec axe du piston Ø12: dans les kit origine avec axe du piston Ø10 nous conseillons d'assembler l'axe Ø12 qui résiste mieux aux sollicitations mécaniques. Nous rappelons que ce vilebrequin doit être assemblé sur le kit avec axe du piston Ø12.

CONDIZIONI DI VENDITA

Il conferimento dell'ordine comporta l'accettazione delle nostre condizioni di vendita, qui di seguito riportate, che il committente dichiara di conoscere; eventuali modifiche, per essere valide, dovranno essere concordate precedentemente in forma scritta.

I prezzi si intendono per merce franco ns. magazzino, IVA esclusa, non sono impegnativi e possono venire modificati senza preavviso.

Le nostre fatture devono essere pagate in contanti alla consegna, al nostro domicilio di Alonte, salvo diversamente stabilito. Qualora in fattura venisse concordato un termine di pagamento, siamo autorizzati, per comodità di esazione, ad emettere una tratta o una ricevuta bancaria per il corrispondente importo alla scadenza.

Tratte, ricevute bancarie, cambiali, aperture di credito irrevocabili confermate, a copertura di fatture accettate o pagabili, anche se convenute ed emesse in luogo diverso, si intendono sempre salvo buon fine e, se non onorate alla scadenza, mantengono fermo ad ogni effetto l'obbligo del successivo pagamento delle fatture in contanti al nostro domicilio di Alonte. Procedimenti di trasmissione di valuta dall'estero verso l'Italia non comportano modifica all'obbligo del pagamento al nostro domicilio di Alonte.

Anche se riferito ad una data, il termine di consegna si intende approssimativo, salvo espresso accordo scritto dove esso diviene tassativo o essenziale. In ogni caso, Athena non è responsabile di ritardi dovuti a causa di forza maggiore, o indipendenti comunque da nostra volontà, quali incidenti, esplosioni, scioperi, disservizio postale, ferroviario, doganale, o di ogni altro mezzo di comunicazione o trasporto, rifiuti o ritardi da parte delle autorità a rilasciare licenze di importazione, esportazione o ritiro di licenze già rilasciate, difficoltà di approvvigionamento nei luoghi di produzione o altro ancora. In tutti questi casi, qualora la causa non comporti la definitiva impossibilità della fornitura, il termine di consegna, sia esso approssimativo o essenziale, si intenderà prorogato di una durata uguale a quella degli impedimenti che hanno causato il ritardo della fornitura.

Il mancato pagamento, anche parziale, di una fattura, oltre che l'addebito degli interessi di mora (vedi decreto legislativo 09/10/02 nr. 231), comporta l'automatica decadenza dei termini di pagamento e l'immediata esigibilità di qualsiasi fattura successiva, oltre al nostro diritto ad emettere tratta a vista per il corrispondente importo. Tutte le vendite sono effettuate con riserva di proprietà; pertanto, la proprietà dei beni venduti rimane del venditore fino al completo pagamento dell'importo dovuto.

La merce viene venduta franco magazzino di Alonte (VI) e viaggia a rischio e pericolo del compratore anche se resa franco destino. Qualunque reclamo per danni od omissioni inerenti al trasporto dovrà quindi essere fatto agli esecutori di esso. Qualsiasi tassa, imposta, dazio attuale o futuro, o aumento degli interessi è a carico esclusivo del compratore.

All'arrivo della merce, il compratore è tenuto ad esaminarla ed a verificarne peso, confezione, condizioni e caratteristiche poiché trascorsi 10 giorni dal ricevimento non si accettano eventuali reclami.

In caso di reclami resta fermo l'obbligo da parte del compratore del pagamento delle fatture alla loro scadenza, compresa quella cui si riferisce il reclamo. Qualora, previo accertamento da parte dei nostri tecnici, il reclamo risulti fondato ed il compratore sia in regola coi pagamenti, il nostro obbligo si limita al rimborso del prezzo indicato in fattura o, a nostra scelta, alla sostituzione della merce difettosa o non conforme precedentemente restituita. Il compratore rinuncia a qualsiasi risarcimento di danno o rimborso spese. Non si accettano resi di merce totalmente o parzialmente lavorata.

Il presente contratto, anche se concluso all'estero, la sua formazione, interpretazione ed esecuzione si intendono regolati esclusivamente dalle leggi italiane integrati dalle norme internazionali INCOTERMS nei testi redatti in lingua italiana.

Per qualsiasi controversia inerente al presente contratto sarà esclusivamente competente l'autorità giudiziaria, in particolare il foro di Vicenza.

Our price list is based on Ex-works terms. All goods, even if delivered free of charge, are delivered at buyer's risk and peril.

All complaints on visible faults or on the non-conformity of the received articles shall be sent in writing within eight days from receipt of goods. In case of visible faults or non-conformity duly confirmed by ATHENA, the buyer will be granted the replacement or the reimbursement of the goods, with the exclusion of any claim for indemnity, damages or interests. By way of an exception ATHENA can accept the returns of goods for any other reason only by previous written agreement, if goods are sent in their original packing without being used and delivered free of charge within 15 days after receipt. ATHENA will accept these returns of goods and issue a credit note by deducting a lump sum of 15% on the invoiced amount. All goods returned without our authorization and not respecting the condition above given, even if they are received by our company, cannot be considered as part of this agreement.

Our goods are invoiced at the prices in force at the date of order receipt and shall be payable cash. Failing the written confirmation for any particular reason not attributable to us (including fax, e-mail, etc...) our goods will be invoiced at the prices in force at the date of our order confirmation. These conditions of sale may be modified if the buyer does not update his current bank and commercial references or if these are not more acceptable. By way of penal clause and according to the provisions of the law, all amounts due at their expiry date, which are still due 4 days after the bringing of a default action, will lead to a penalty for delay in payment equal to 2 times the legal interest rate which shall be applied to the remaining amounts due. Legal and beneficial ownership of the goods shall remain at ATHENA until full payment for the goods has been made. In conformity with this clause, the issue of a certificate with obligation to pay (draft or other) does not constitute the payment. The lack of payment at any of the expiries due, even if agreed, can lead to the claiming to the goods. These dispositions do not constitute an obstacle to transfer to the buyer, right from delivery, to the risks of loss and deterioration of goods as well as the damages that may occur. Right from the resale, the buyer commits himself to settle immediately to the seller the remaining amount due, all delays of payment agreed upon with the signing of the contract become, by explicit will between the parties, invalid.
